

Export Inbound Container document setup

Phase	Description	Navigation
Activate the feature in Detailed App management	Search for “Inbound Container Setup” - Click on Detailed App Setup - Enable Show Export Inbound Container	 The screenshot shows the 'Inbound Container Setup' page. Under 'Detailed App Setup', there is a table with columns 'Description' and 'Ena...'. The row 'Show Export Inbound Container' has a checked checkbox in the 'Ena...' column, which is highlighted with a red box.
